Vision Statement

Fred W. Eberle Technical Center’s vision is to promote education and growth in our students. The center strives to assist all students in meeting their individualized occupational goals necessary to succeed in the emerging global society.

Mission Statement

The mission of Fred W. Eberle Technical Center is to produce generations of knowledgeable, skillful, and productive professionals that will lead the way into the future.

Core Beliefs

1. We believe that all students are entitled to the opportunity to learn within a safe, well maintained, and disciplined environment.
2. We believe in utilizing input from industry and community

professionals to constantly evaluate our programs to ensure we are maintaining current industry standards, including technological changes.

3. We believe in developing and maintaining a rigorous, relevant, and engaging program of study for each concentration taught, providing for all learning styles with an emphasis on project-based learning.

Director’s Message

I would like to take this opportunity to welcome you to Fred W. Eberle Technical Center (FETC). FETC is a multi-county career technical education center that has been serving the citizens of Barbour, Lewis, Upshur Counties, and surrounding areas since 1968.

The Fred W. Eberle Technical Center staff is dedicated to providing the best education and training possible. Graduates perform well on state and national certification tests. Certification is available through many of our programs. The shop areas are large and well equipped with the latest technology.

As you browse through the catalog, you will see that we offer a wide range of programs that meet the needs of our community and the global economy. We appreciate your interest and hope to see you soon.

Sincerely yours,

Rebecca Bowers-Call
Director

Accreditation

Fred W. Eberle Technical Center is accredited by the:

Council on Occupational Education (COE)

7840 Roswell Road
Building 300, Suite 325
Atlanta, GA 30350
Telephone: (770) 396-3898
Fax: (770) 396-3790
www.council.org

West Virginia Department of Education

Building 6, Capitol Complex
Charleston, WV 25305
Telephone: (304) 558-2346

The Center is recognized by:

Barbour County Board of Education

45 School Street
Philippi, WV 26416
Telephone: (304) 457-3030

Lewis County Board of Education

239 Court Ave.
Weston, WV 26452
Telephone: (304) 269-8300

Upshur County Board of Education

102 Smithfield Street
Buckhannon, WV 26201
Telephone: (304) 472-5480

Fred W. Eberle Technical Center programs have been approved through:

WV Region VI Workforce Investment Board

17 Middletown Road
White Hall, WV 26554
Telephone: (304) 368-9530

The Practical Nursing program is accredited by:

West Virginia State Board of Examiners for Licensed Practical Nurses

101 Dee Drive
Charleston, WV 25311
Telephone: (304) 558-3572

The Collision Repair Technology program is certified by:

Inter-Industry Conference on Auto Collision Repair (I-CAR)

5125 Trillium Blvd.
Hoffman Estates, IL 60192
Telephone: (800) 422-7872

The School of Cosmetology and Design is accredited by:

West Virginia State Board of Barbers and Cosmetologists

1201 Dunbar Avenue
Dunbar, WV 25064
Telephone: (304) 558-2924

Non-Discrimination Policy

As required by federal laws and regulations, Fred W. Eberle Technical Center does not discriminate on the basis of sex, color, race, religion, disability, age, and national origin in employment and in the administration of any of its education programs and activities. For inquiries contact: Rebecca Bowers-Call, Title IX Director and 504 Coordinator, 208 Morton Avenue, Buckhannon, WV 26201, 304.472.1259 or rebecca.bowers@k12.wv.us or to the U. S. Department of Education's Director of the Office for Civil Rights, phone no. 215-596-6795.

HISTORY

Fred W. Eberle Technical Center was established in 1968 as the state's first "multi-county" vocational school and has been serving the students of Barbour, Lewis, Upshur Counties, and surrounding areas ever since. The school is named after Fred W. Eberle who served as State Director of Vocational Education and Assistant Superintendent of Schools from 1964-1972. Having recently celebrated its 55th anniversary, Fred W. Eberle Technical Center continues as one of the state's seven multi-county technical centers.

Facilities

The campus of Fred W. Eberle Technical Center consists of two large classroom/shop buildings, one stand-alone classroom/shop, two smaller classroom buildings and several storage buildings situated on approximately 6 acres. The original building was constructed in 1968 and houses the Practical Nursing, Therapeutic Services, Diesel Equipment Technology, Welding Technology, Collision Repair programs along with the salon operated by the Cosmetology

program. The Automotive Technology, Electrical Technician, Carpentry programs and a second Cosmetology classroom are located in the 1974 addition. The IT department, Allied Health and the administrative offices are located in the 1987 annex. The newest addition to campus is the HVAC Technician building formerly known as "the Sawmill building". Opening a brand-new program this year, this building was renovated in the summer of 2022 through an \$800,000.00 School Building Authority grant. All shops are large and have separate classrooms. The Truck Driving program operates on a 3-acre lot which has a large truck port and separate classroom building.

The buildings are well maintained (new doors, HVAC units, roofs, etc) and each shop has up-to-date equipment. Large investments in technology have been made over the past several years. Each classroom has a projector and a 70" tablet for instructor and student use. Students can take advantage of multiple mobile computer labs.

Fred W. Eberle Technical Center is located just a few miles from Interstate 79 and along U.S. Route 33 which makes it easily accessible from virtually anywhere in central WV.

Expected Behavior in Safe and Supportive Schools

Fred W. Eberle Technical Center's Administrative Council recognizes the need for students, teachers, administrators, and other school personnel to have a safe and supportive educational environment. Fred W. Eberle Technical Center's Administrative Council believes further that public schools should undertake proactive, preventive approaches to ensure a positive school climate/culture that fosters learning and personal/social development. Public schools must create, encourage, and maintain a safe,

drug-free, and fear-free school environment in the classroom, on the playground, and at school-sponsored activities. Assuring such an educational environment requires a comprehensive plan supported by everyone in the school organization, as well as parents/guardians and the community.

Effective July 1, 2012, the West Virginia Department of Education adopted a new policy which sets the requirements for the development of safe and supportive schools that provide optimum learning conditions for both students and staff. Safety and order form the foundation of a positive school climate/culture and supports academic achievement and personal/social development. This policy also establishes disciplinary guidelines for student conduct that outline behaviors prohibited in West Virginia schools and must be consistently addressed in order to assure an orderly, safe, drug-free, violence-free, and harassment-free learning environment.

Policy 4373 can be found at: <http://wvde.state.wv.us/policies>

Substance Abuse

The Fred W. Eberle Technical Center will report any incidents of substance abuse to the authorities and those involved will be subject to the substance abuse policy of their home school.

Harassment And Violence

The Fred W. Eberle Technical Center believes that the dignity of each human being shall be considered in all school activities, and that all learning and working environments are free from racial, sexual, or religious/ethnic harassment or violence. Acts of harassment

or violence involving students or staff shall not be tolerated by Fred W. Eberle Technical Center. Violators will be subject to their home school's harassment policy.

Fire Drills

Fire drills are necessary for the safety of the students and staff. Drills are held periodically throughout the school year. The signal is a bell or "buzzer" which sounds continuously for 30 seconds or longer. It is essential that everyone promptly clear the building by the prescribed route when the alarm is sounded. All students will be required to follow more detailed fire drill procedure, which will be given by instructors and posted in the instructional areas.

Injury or Serious Illness

Students who are injured at school or witness injury of another student (*no matter how minor*) should report the injury to the classroom instructor immediately. Students who become ill should report the illness to the instructor. If medical attention is needed, every attempt will be made to contact a parent or relative. The school will always attempt to act in the best interest of the student.

Insurance

As you know, when working with machinery, metals, power tools, etc., there is the possibility of injury. *Each student is encouraged to have an insurance policy.*

Textbooks

All basic textbooks are loaned to students for their use during the school year. Textbooks are to be kept clean and handled properly.

Students will be required to pay for lost or damaged books. Adult students have the option of purchasing their textbooks.

Cell Phones

While at work employees are expected to exercise discretion in using personal cellular phones so that is what is expected for students. Personal calls during school hours, regardless of the phone used can interfere with student productivity, safety and be distracting to others. Students are directed to make personal calls during breaks and lunch period and to ensure that friends and family members are aware of the school's policy.

Search and Seizure in Public Schools

Student lockers are school property and remain, at all times, under the control of the school; however, students are expected to assume full responsibility for the contents of their lockers. Periodic general inspection of lockers may be conducted by school authorities at any time without notice and without student consent. Fred W. Eberle Technical Center will not be responsible for any article a student may leave in his/her locker.

Any school administrator has the authority to search a student's personal possessions, (purse, wallet, book bag, etc.) and/or vehicle on school property or at a school function if the administrator has reasonable suspicion that the student is violating school policy or state or federal law. In any case where a violation of state law may have occurred, the administration has the right to refer the offense to civil authorities and/or the police. Any student committing an offense or

violation is responsible for all damages and personal injuries, and the parents or legal guardians are responsible for damages to the extent provided by the law.

Publication Disclaimer

Pictures of students will be placed in local newspapers, the school website and school publications occasionally for recognition of awards and individual placements for career and technical contests. If a student does not wish to have his/her picture or information placed in these articles, they should report this to their instructor.

Career Counseling

Career counseling is available from any staff member at Fred W. Eberle Technical Center.

Student Records

Information from records, files, and data directly related to a student will not be disclosed to individuals or agencies outside the Center without the consent of the student in writing, except pursuant to lawful subpoena or court order, or except in the case of specifically designated educational and governmental officials as required by Public Law 93-380 (Educational Amendments of 1974). Information contained in such records may be shared within the Center. Records originating at another institution will be subject to these policies.

Admission Policy

Fred W. Eberle Technical Center has a long tradition of providing quality training to post-secondary students. Several post-secondary programs are offered. Adult

students can also enroll in secondary programs where space is available.

Individuals interested in enrolling in a program must first apply. Diesel Equipment Technology, Electrical Technician, and Welding programs require instructor-made math skill pretests. Instructor interviews are conducted for all adult students. See the Truck Driving program brochure for additional requirements specific to that program. See the program handbooks and brochures for additional requirements for admittance to the Cosmetology and Practical Nursing programs.

Additionally, students enrolled in other programs participating in the Simulated Workplace Initiative are **required** to submit to random drug testing.

Transfer Policy

Persons interested in transferring into a program from another technical center must submit the following to the Director:

- Current application form
- Written request for transfer
- High school or its equivalent
- Official transcript of all previous academic and technical training

from the last career technical center attended

- Course descriptions for each course satisfactorily completed
- Letter of recommendation from last school attended
- Complete written and skills evaluations as requested by the Director.
- Appear for an interview with the instructor of the program.

Transfer students will only be considered if openings exist. Students who were dismissed or had failing grades when they withdrew from other programs will not be considered. If more than a year has elapsed since a student withdrew from another program, he/she will not be considered. Students must have left previous program in good standing.

Students who transfer into a program must agree to adhere to the attendance and all other student policies. Tuition will be based on the number of months left in the program and the total tuition fee for the entire year.

Grievance Procedure

The purpose of this procedure is to provide a way for students to reach solutions to problems, large and small that may occur in school life. It is the intent of this procedure to maintain good morale, and provide a simple, straight-forward method of problem solving. For more details, please see the Fred W. Eberle Technical Center Conflict Resolution Flow Chart at the end of this catalog.

STEP I: Any student who feels they have a valid grievance may request a meeting within one week with their classroom

instructor to discuss the problem. The desire is that a satisfactory solution may be reached for the student at this level.

STEP II: If the grievance is not resolved in Step I, the matter may be presented to the Director of Fred W. Eberle Technical Center, in writing, within one week.

STEP III: If not resolved in Step II, the grievance may be presented to the Administrative Council of Fred W. Eberle Technical Center in writing within one week.

STEP IV: Students wishing to bring their concerns or complaints to the attention of the Commission on Occupational Education may do so in writing. The contact information is:

Council on Occupational Education
 7840 Roswell Road, Building 300, Suite 325
 Atlanta, GA 30350
 Telephone (Toll-Free): 800-917-2081
www.council.org

Tuition /Fees Schedule

Class	Total*	Tuition	Fees
Truck Driving (8 Weeks)	\$3,400.00	\$2,834.50	\$565.50
Truck Driving (10 Weeks)	\$4,000.00	\$2,550.00	\$1,450.00
Practical Nursing	\$6,100.00	\$4,400.00	\$1,700.00
Cosmetology	\$10,000.00	\$5,300.00	\$4,700.00
Welding	\$2,800.00	\$1,650.00	\$1,150.00
Diesel	\$2,250.00	\$1,450.00	\$800.00
Electrical Technician	\$3,000.00	\$1,775.00	\$1,225.00

*Per Student

Financial Aid

Eligible Student (Pell Grant)

Financial aid is available to qualified students. To apply: complete the Free Application for Federal Student Aid (FAFSA). You may apply on line at: www.fafsa.ed.gov. The Title IV code number for Fred Eberle Technical Center is: **017035**.

To qualify, a student must:

- Be a U.S. citizen or other eligible non-citizen.
- Be a high school graduate or have earned a GED. If a student has received a Bachelor’s degree, he or she is not eligible for a Pell Grant.
- Be enrolled in an eligible program of at least 600-clock hours in length that leads to a certificate or other educational credential.
- Not be in default on any prior Title IV loans or owe a repayment on any grant

- Show financial need as determined by the Department of Education.
- Must maintain satisfactory academic progress.

Return of Title IV Funds

This institution participates ONLY in the Federal Pell Grant Program; in accordance with the Title IV Return of Federal Funds regulations, Federal Pell Grant recipients should be aware that their Federal Pell Grant disbursements must be earned through the 60% point in each payment period (i.e. 270 hours of a 450 hour payment period). A student's withdrawal or termination from school prior to completion of 60% of their payment period will result in the application of a pro rata schedule to determine the amount of Federal Pell Grant the student has earned at the time of withdrawal. After the 60% point in the payment period, the student has earned 100% of the Federal Pell Grant disbursement for that payment period. This is a separate calculation from the institutional refund policy.

The percentage of hours completed in the payment period is calculated by dividing the number of scheduled hours or completed hours through the student's last date of attendance by the hours in the payment period (generally 450). After 60% of the payment period is completed, there is no return of the Title IV (Pell) funds. The amount of Pell Grant earned is calculated by multiplying the total amount of Pell Grant that could have been awarded for the payment period by the percentage of time completed. The amount to be returned to the U.S. Department of Education is determined by taking the amount of Pell earned and subtracting it from the amount of Pell disbursed. The institution's share of

the amount to be returned is calculated by multiplying the institutional charges (registration fee, application fee, activity and lab fees, and tuition) by the percentage of time not enrolled. The student's share is calculated by subtracting the amount the school must return from the total amount to be returned. The amount of the student's share is then divided in half and must be repaid to the school within 45 days of notification of the repayment due, or the student's account will be turned over to the U.S. Department of Education for collection, and the student becomes ineligible for further federal financial aid.

Should the Return of Federal Funds calculation show a repayment due, any refund due the student from the institutional refund calculation will be applied toward the student's unearned Pell before any funds are disbursed to the student.

For example: A student attends 255 hours of a 450-hour payment period, or 50% of the payment period. The institutional charges for the period of enrollment are \$750, and the Pell Grant disbursement was \$1000. The unearned Pell Grant is 50% of \$1000, or \$500. The institutional share of the unearned Pell is 50% of \$750, or \$375. The student's share of the unearned Pell Grant would be \$500 - \$375, or \$125 – but the student has only to return half this amount, or \$75. The student would also be billed by the school for the \$375 or institutional charges due to the school as a result of the returned funds by the school. The student would be obligated to repay \$75 to the U.S. Department of Education, even though they might have spent their entire refund on books and other school-related expenses.

Tuition/Enrollment Periods

The enrollment period for most programs is August of each year. Tuition in all programs (except Cosmetology, Practical Nursing and Truck Driving) will be billed on a per semester basis.

Refund Policy

Students who officially withdraw during any enrollment period will receive a refund of any unused fees and a portion of tuition in accordance with the following schedule:

- Weeks 1 & 2--90% refund
- Weeks 3 & 4--70% refund
- Weeks 5 & 6--50% refund
- After week 7--NO Refund

Refunds, when due, are made without requiring a request from the student. The student may request a refund at the time of withdrawal or termination. If the student does not request a refund, the center will process the refund within 15 business days. All refunds are processed within 15 business days of the time the student withdraws and notifies the business office. If a student misses 10 consecutive days and does not officially withdraw or make contact with the instructor, a refund will be processed if warranted.

Students who pre-pay and decide to withdraw before class begins will be given a full refund. (Except for any application or seat fees.)

HEAPS

Higher Education Adult Part-Time Student (HEAPS) Grants are available to eligible students

WIOA

Workforce Innovation and Opportunity Act (WIA) funds are available to a limited number of students who are determined to be eligible by Job Service-Employment Security Office. These funds provide tuition and expenses for qualified students enrolled in eligible programs.

Other Funding Sources

Students should check with the following agencies to see if they are eligible for funding under their guidelines:

- Vocational Rehabilitation
- Workers Compensation
- United Mine Workers (UMWA)
- Trade Adjustment Act (TAA)

Attendance

Employers list regular attendance as one of the most important behaviors they look for when making a hiring decision. Therefore, we require students to attend classes regularly. Post-secondary students, enrolled in paid programs, whose attendance rate falls below 90% will be in danger of losing their financial aid. Chronic attendance issues may result in additional consequences, such as removal from the program.

A student who is enrolled in class at least 3 hours per day is considered part-time. A student who is enrolled in class at least 6 hours per day is considered full-time.

Satisfactory Academic Progress

Satisfactory Academic Progress shall be defined as maintaining a minimum of a **“C average or 70%”** for the duration of the program. Should a student’s grades fall below a **“C”** average for a nine-week grading period or the midterm of a semester, they will be placed on academic probation.

A student will be removed from academic probation only after the grade point deficiency has been made up and the average grade point average is 2.0 or better. The Guidance Counselor and the Functional Academics Instructor will be available to assist students with solutions to problems that result in poor academic progress. If a student remains on academic probation for two nine-week grading periods, the instructor may recommend removal from the program (students using VA education benefits will not have further enrollments certified). Any student whose grades are not brought up to a **“C”** average by the end of the semester will not be eligible for financial aid.

Verification Policy

It will be the policy of the school to verify 100% of the financial aid applications selected for this process by the federal processor.

Withdrawal Policy

To make a proper withdrawal from school, an adult student must complete a Withdrawal Form with the instructor of the program. He/She should then report to the Director or Assistant Director to establish the reason for withdrawal. It is necessary that the school have the reason for

withdrawal and other information for permanent records.

All students must also have any outstanding charges paid in full before leaving their program.

Re-Entrance Policy for Dismissed Students

Students seeking reentrance into a program must:

- Submit a letter of consideration for readmission.
- Submit a current admission application
- Not be indebted to the school for any fees incurred previously at Fred Eberle Technical Center. Indebtedness includes books, tuition, etc.
- Appear for an interview with the instructor.
- Enter at the designated time.
- Adhere to all current policies, including any revised ones.
- Submit any additional information required.
- Submit to any requested skills and/or written testing.
- Have no disciplinary actions taken against them.

All previous students will be considered for readmission on a case-by-case basis and at the discretion of the director and instructor of the program. Students who were dismissed because of failing grades or who withdrew with a failing average must show that they have taken steps to improve their academic skills. Tuition and costs and fees will be calculated according to the number of hours needed for completion.

Grading

The following grading scale will be used at Fred W. Eberle Technical Center:*

A = 90 - 100

B = 80 - 89

C = 70 - 79

D = 60 - 69

F = 0 - 59

I = Incomplete

**See the Practical Nursing handbook for their grading scale.*

Certificates

A CTE certificate of completion will be awarded to any student who has successfully completed the prescribed curriculum for his or her course of study by passing the four required courses.

No certificate will be awarded for less than a 540-hour training program except the Truck Driving program.

Post-Secondary Program of Studies

* - indicates tuition/fee-based programs accredited by the Council on Occupational Education

δ - indicates secondary programs that adults may enroll in when space is available

Architecture and Construction
Cluster

δ Carpentry
AR1820

Program Description

The Carpentry concentration focuses on careers that will build a knowledge base and technical skills in all aspects of the carpentry industry. Learners will be exposed to a broad range of construction careers and foundation knowledge including basic safety; plan reading; use of tools and equipment; basic rigging; and how to employ positive work ethics in their careers.

Major Units of Study

WVEIS Code	Course Title
1842	Carpentry I
1843	Carpentry II
1844	Carpentry III
1845	Carpentry IV
1820	Applications in Commercial Construction
1821	Concrete Finishing
1822	Blueprint Reading for Construction
1829	Masonry and Plumbing

Entrance Requirements

- Submit an Application
- Interview with Instructor
- Background check

Length of Program

The program consists of 1080 Clock Hours and may be completed as follows:

- Full-time—1 year
- Part-time—2 years

The program operates on a regular academic calendar that includes 2 semesters.

Time Offered

The program is offered during the day. Full-time students attend from 8 am until 3 pm Monday thru Friday. Part-time students can attend from 8 am until 11 am or 12 pm until 3 pm Monday thru Friday.

Program Structure

The program uses classroom, shop and lab activities to deliver instruction. Instruction includes the use of safety procedures and care of tools, equipment, materials and processes used in the industry. Equipment and supplies are provided to enhance hands-on experiences for students.

Certification/Credentialing

Students will have the opportunity to earn the OSHA-10 certification.

**Architecture and Construction
Cluster**

*** Electrical Technician
AR1760**

Program Description

The Electrical Technician concentration focuses on careers that will build a knowledge base and technical skills in all aspects of the Electrical Trades industry. Students will have the opportunity to earn certification and be exposed to skills to develop positive work ethics.

Major Units of Study

Course Title	Hours
1756 Electrical Trades I	135
1757 Electrical Trades II	135
1758 Electrical Trades III	135
1759 Electrical Trades IV	135
1766 Integrated Electrical Lab	135
1767 National Electrical Code	135
1769 Residential Wiring	135
1771 Rotating Devices and Control Circuitry	135

Entrance Requirements

- Submit an Application
- Pass a basic math test
- Interview with Instructor
- Background check

Length of Program

The program consists of 1080 Clock Hours.

The program operates on a regular academic calendar that includes 2 semesters.

Time Offered

The program is offered in the evenings. Students can attend Tuesday-Thursday evenings. Hours and meeting days are subject to change based on instructor discretion.

Program Structure

The program uses classroom, shop, and lab activities to deliver instruction. Instruction includes the use of safety procedures and care of tools, equipment, materials, and processes used in the industry. Equipment and supplies are provided to enhance hands-on experiences for students.

Certification/Credentialing

Students will have the opportunity to earn the OSHA-10 certification. Students completing the course will be eligible to sit for the exam to become licensed by the state of WV as a Journeyman Electrician.

**Architecture and Construction
Cluster**

**Δ HVAC Technician
AR1600**

Program Description

The HVAC Technician concentration focuses on careers that will build a knowledge base and technical skills in all aspects of the heating, ventilation, and air conditioning industry. Students will have the opportunity to earn certification and be exposed to skills to develop positive work ethics.

Major Units of Study

Course Title	Hours
1752 HVAC I	135
1753 HVAC II	135
1754 HVAC III	135
1754 HVAC IV	135
1602 Air Conditioning App	135
1607 Heating Systems	135
1608 Comm Air Conditioning	135
1603 Domestic Refrigeration	135

Entrance Requirements

- Submit an Application
- Pass a basic math test
- Interview with Instructor
- Background check

Certification/Credentialing

Students will have the opportunity to earn the OSHA-10 certification. Students completing the course will be eligible to earn certification in EPA refrigerant and NATE.

Health Science Cluster

* Practical Nursing HE0776

Program Description

The program of instruction is designed to assist the student in acquiring the ability to administer good nursing care to individuals as a Practical Nurse.

Upon completion of the program, students will receive the diploma and pin of a graduate nurse. They will then be eligible to take the licensure examination for Practical Nursing (NCLEX-PN) as required by the West Virginia State Board of Examiners for Licensed Practical Nurses.

Major Units of Study Theory

Course Title	Hours
PVR I	24
Fundamentals of Nursing	147
Anatomy & Physiology	60
Geriatrics	30
Mental Health	33
Nutrition	30
Medical/Surgical Nursing	144
Pharmacology	102
Maternal Nursing	30
Pediatrics	45
Leadership	33

Clinical

Course Title	Hours
Fundamentals	112
Geriatrics	97
Mental Health	65
Medical/Surgical	248
Pharmacology	60
Leadership	90

Entrance Requirements

- High school diploma or Equivalent
- Successful completion of entrance examination (TEAS V)
- Completion of drug screening
- Current physical & dental examination, immunization status, and CPR certification
- Criminal Background Check
- Personal References
- Interview

Length of Program

The program consists of 1350 Clock Hours and may be completed in one year.

Entrance Dates

The program operates on a yearly academic calendar that runs from January to December.

Time Offered

The program is offered during the day. Students attend from 8 am until 3 pm each day for class and 7:30 am until 2:30 pm for clinicals.

Program Structure

Student will receive both classroom and in-hospital instruction in a wide variety of clinical settings. Patient-centered, student-centered teaching is emphasized. This encourages the development of the knowledge, attitudes, and skills essential to nursing. The school is affiliated with St. Joseph's Hospital, Buckhannon; Stonewall Jackson Hospital, Weston; Davis Memorial Hospital, Elkins; Holbrook on the Hill Nursing Home, Buckhannon; Crestview Manor, Jane Lew; William R. Sharpe Hospital, Weston; United Hospital Center, Clarksburg, and various community agencies. These clinical facilities are an integral part of the education program, and more than half of the student's time will be spent practicing in these locations.

Human Services Cluster

* Cosmetology HU1730

Program Description

The Cosmetology concentration focuses on the knowledge, skills, attitudes and practices required for careers in the field of Cosmetology. This concentration is designed for licensure by the State Board of Barbers and Cosmetologists.

Major Units of Study

WVEIS Code	Course Title
1737	Cosmetology 1
1738	Cosmetology 2
1740	Cosmetology 3
1734	Cosmetology 4
1720	Intro to Nail Technology
1719	Nail Technology
1732	Skin Sciences I
1733	Business Management

Entrance Requirements

- High School Diploma or Equivalent
- Entrance Exam
- Drug screen
- Criminal Background Check
- References
- Interview

Length of Program

The program consists of 1800 clock hours over 3 academic semesters.

Entrance Dates

The program will start in August and finish September-October of the next year.

Time Offered

The program is offered during the day. Class is held on Monday thru Friday from 8 am until 3 pm.

Program Structure

Classes will consist of theory of cosmetology including hair, skin, nails, and business management. Hands-on skills will also be provided in these areas. After completing 350 clock hours, students will work in the clinic area performing services.

Certification/Credentialing

Students will have the opportunity to earn the OSHA-10 certification. Upon completion of the program, students will be eligible for licensure by the West Virginia State Board of Barbers and Cosmetologists.

Information Technology Cluster

δ Computer Systems Repair Technology IT1680

Program Description

The Computer Systems Repair Technology concentration validates foundation-level knowledge and skills necessary for a career in PC support. It is the starting point for a career. The CompTIA A+ and Network+ certifications are both international and vendor-neutral and prove competence in areas such as installation, preventative maintenance, networking, security and troubleshooting.

Major Units of Study

WVEIS Code	Course Title
1705	Fundamentals of Computer Systems
1664	A+ Essentials
1665	A+ Practical Applications
1694	Network Essentials

Entrance Requirements

- Submit an Application
- Interview with Instructor
- Background check

Length of Program

The program consists of 600 Clock Hours and may be completed in one year.

The program operates on a regular academic calendar that includes 2 semesters.

Time Offered

The program is offered during the day. Students will attend Monday thru Friday from 8 am until 11 am.

Program Structure

The program uses classroom, lab activities and “live work” to deliver instruction. Instruction includes the use of safety procedures and care of tools, equipment, materials, and processes used in the industry. Equipment and supplies are provided to enhance hands-on experiences for students.

Certification/Credentialing

Students will have the opportunity to earn the OSHA-10 certification. Students who complete the course are eligible to sit for the CompTIA A+ and Network+ certifications.

Manufacturing Cluster

δ Robotics and Drones MA1630

Program Description

The robotics and drone program of study is designed to provide knowledge and skills necessary to develop, operate, and maintain robotic and drone flight systems. The robotics curriculum teaches fundamentals of robotic functions and uses as they apply to manufacturing. The drone curriculum teaches the requirements for the FAA 107 License.

Major Units of Study

WVEIS Code	Course Title
1866	Robotics REC1
1867	Robotics REC2
1887	FAA 107 Ground Operations
1888	FAA 107 Flight Operations

Entrance Requirements

- Submit an Application
- Interview with Instructor
- Background check

Length of Program

The program consists of 600 Clock Hours and may be completed in one year.

The program operates on a regular academic calendar that includes 2 semesters.

Time Offered

The program is offered during the day. Students will attend Monday thru Friday from 12 pm until 3 pm

Program Structure

The program uses classroom, lab activities and “live work” to deliver instruction. Instruction includes the use of safety procedures and care of tools, equipment, materials, and processes used in the industry. Equipment and supplies are provided to enhance hands-on experiences for students.

Certification/ Credentialing

Students who complete the program are eligible to attempt the FAA 107 Licensure exam.

Manufacturing Cluster

* Welding MA1980

Program Description

The Welding concentration focuses on careers that will build a knowledge base and technical skills in all aspects of the Welding industry. Students will have the opportunity to earn industry certification and be exposed to skills to develop positive work ethics.

Major Units of Study

Course Title	Hours
1862 Welding I	100
1863 Welding II	100
1864 Welding III	100
1865 Welding IV	100
1987 Gas Metal Arc Welding	75
1982 Ornamental Metalwork	50
1983 Blueprint Reading and Metallurgy	50
1989 Gas Tungsten Arc Welding	75

Entrance Requirements

- High School Diploma or Equivalent
- Submit an Application
- Pass a basic math test
- Interview with Instructor
- Background check

Length of Program

The program consists of 600 Clock Hours.

The program operates on a regular academic calendar that includes 2 semesters.

Time Offered

The program is offered during the evening. Class is held on Monday through Thursday. Hours and meeting days are subject to change based on instructor discretion.

Program Structure

The program uses classroom, shop, and lab activities to deliver instruction. Instruction includes the use of safety procedures and care of tools, equipment, materials, and processes used in the industry. Equipment and supplies are provided to enhance hands-on experiences for students.

Certification/Credentialing

Students will have the opportunity to earn the OSHA-10 certification. Students will also be eligible to receive WV Welding Certification.

Transportation, Distribution and Logistics Cluster

δ Automotive Technology TR1620

Program Description

The Automotive Technology concentration focuses on careers that will build a knowledge base and technical skills in all aspects of the automotive industry. Students will have the opportunity to acquire hours towards certification and be exposed to skills to develop positive work ethics. Students utilize problem-solving techniques and participate in hands-on activities to develop an understanding of course concepts.

Major Units of Study

WVEIS Code	Course Title
1631	Fundamentals of Auto Tech
1623	Basic Engine Concepts
1625	Brake Systems
1637	Suspension and Steering
1627	Electrical/Electronic Systems
1635	Manual/Automatic Drive Trains
1629	Engine Performance
1633	Heating and Air Conditioning

Entrance Requirements

- Submit an Application
- Interview with Instructor
- Background check

Length of Program

The program consists of 1080 Clock Hours and may be completed as follows:

- Full-time—1 year
- Part-time—2 years

The program operates on a regular academic calendar that includes 2 semesters.

Time Offered

The program is offered during the day. Full-time students attend from 8 am until 3 pm Monday thru Friday. Part-time students can attend from 8 am until 11 am **or** 12 pm until 3 pm Monday thru Friday.

Program Structure

The program uses classroom, shop, and lab activities to deliver instruction. Instruction includes the use of safety procedures and care of tools, equipment, materials, and processes used in the industry. Equipment and supplies are provided to enhance hands-on experiences for students.

Certification/Credentialing

Students will have the opportunity to earn the OSHA-10 certification. The program is NATEF certified. Students earn hours toward certification.

Transportation, Distribution and
Logistics Cluster

8 Collision Repair Technology
TR1670

Program Description

The Collision Repair Technology concentration focuses on careers that will build a knowledge base and technical skills in all aspects of the Collision Repair industry. Students will have the opportunity to acquire hours towards certification and be exposed to skills to develop positive work ethics.

Major Units of Study

WVEIS Code	Course Title
1671	Fundamentals of Collision Repair
1675	Non-Structural Analysis and Damage Repair
1677	Structural Analysis and Damage Repair
1679	Surface Preparation and Refinishing
1672	Detailing and Interior Parts
1673	Mechanical and Electrical Components
1674	Advanced Refinish Techniques
1676	Custom Finishing Processes

Entrance Requirements

- Submit an Application
- Interview with Instructor
- Background check

Length of Program

The program consists of 1080 Clock Hours and may be completed as follows:

- Full-time—1 year
- Part-time—2 years

The program operates on a regular academic calendar that includes 2 semesters.

Time Offered

The program is offered during the day. Full-time students attend from 8 am until 3 pm Monday thru Friday. Part-time students can attend from 8 am until 11 am **or** 12 pm until 3 pm Monday thru Friday.

Program Structure

The program uses classroom, shop and lab activities to deliver instruction. Instruction includes the use of safety procedures and care of tools, equipment, materials and processes used in the industry. Equipment and supplies are provided to enhance hands-on experiences for students.

Certification/Credentialing

Students will have the opportunity to earn the OSHA-10 certification. The program is ICAR certified. Students earn hours toward certification.

Transportation, Distribution and Logistics Cluster

* Diesel Equipment Technology TR1740

Program Description

The Diesel Technology concentration focuses on careers that will build a knowledge base and technical skills in all aspects of the Diesel Equipment Technology industry. Students will have the opportunity to acquire hours towards industry certification and be exposed to skills to develop positive work ethics.

Major Units of Study

Course Title	Hours
1741 Diesel Engine Components	125
1744 Electronic Engine Controls	125
1747 Diesel Support Systems	125
1751 Fundamentals of Diesel Technology	125
1742 Diesel Electrical Systems	50
1743 Diesel Engine Tune-up	25
1745 Diesel Preventive Maintenance and Inspection	75
1749 Truck Chassis Components	25

Entrance Requirements

- Submit an Application
- Interview with Instructor
- Pass a basic math test
- Background check

Length of Program

The program consists of 675 Clock Hours.

The program operates on a regular academic calendar that includes 2 semesters.

Time Offered

The program is offered during the evening. Class is typically held on Monday, Tuesday, Wednesday, and Thursday. Hours and meeting days are subject to change based on instructor discretion.

Program Structure

The program uses classroom, shop, and lab activities to deliver instruction. Instruction includes the use of safety procedures and care of tools, equipment, materials, and processes used in the industry. Equipment and supplies are provided to enhance hands-on experiences for students.

Certification/Credentialing

Students will have the opportunity to earn the OSHA-10 certification. The program is NATEF certified. Students earn hours toward certification.

Transportation, Distribution and Logistics Cluster

* Truck Driving TR2170

Program Description

This course introduces the student to the knowledge base and technical skills for Commercial Driving License. Areas of study include CDL license information, licensing procedures and requirements and traffic laws.

Major Units of Study

Course Title	Hours
Orientation	5
Preparation for Written Test	60
Pre-trip Inspection	20
Basic Control Skills	50
Road Driving Skills	125
Passenger bus Endorsement	60

Entrance Requirements

- Hold a valid WV Driver's License
- Be at least 18 years old with two years of driving experience
- Be able to pass a DOT CDL physical examination and drug screen
- Conform to a dress code and personal hygiene appropriate for the trucking industry
- Background check

Length of Program

The program consists of 240 hours (Class A), or 300 hours (Passenger Bus Endorsement) clock hours.

Entrance Dates

The program operates on an 8- or 10-week schedule depending on endorsement. A new class begins approximately every 5-6 weeks.

Time Offered

Class is held on Monday thru Friday from 8:00a.m. until 3:00 p.m.

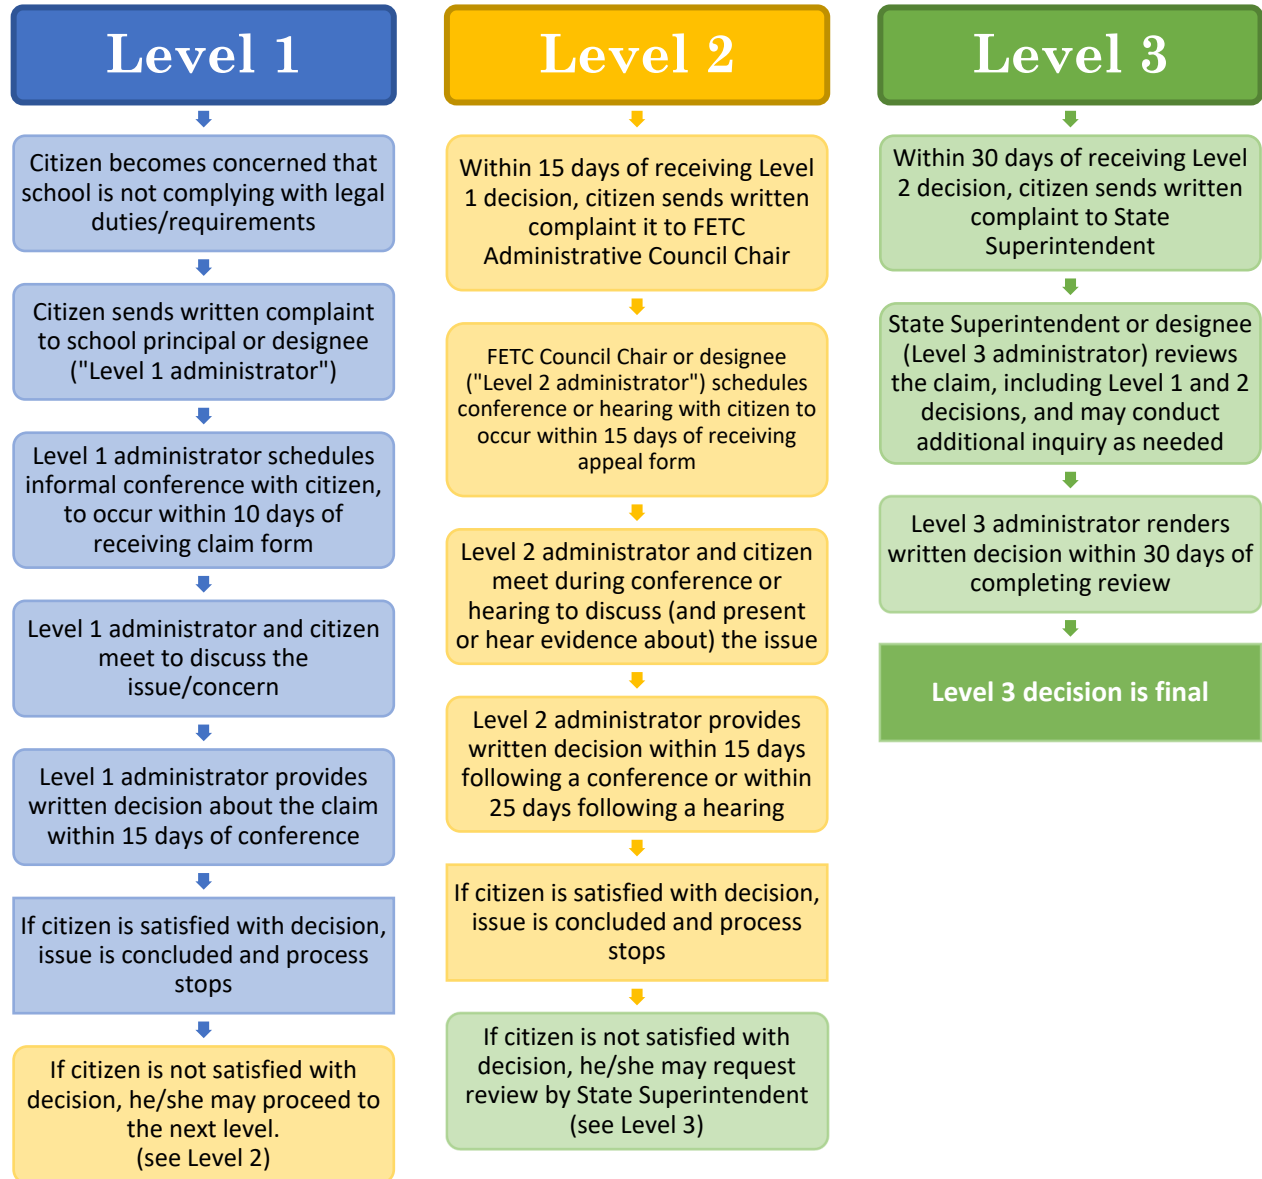

Program Structure

Students spend the first 2 weeks in the classroom preparing for the written examination. Once they receive their driving permit, they spend the next 6 to 8 weeks working on pre-trip inspections, driving range skills and road operations.

Certification/Credentialing

Students completing the course will test for a WV Class A and/or B CDL license (with endorsements which may include tanker, doubles, triples, passenger, school bus & Haz mat). The state driving test is administered on site by a state certified tester.

Fred W. Eberle Technical Center Conflict Resolution Process WVDE Policy 7211

The Citizens' Conflict Resolution Process is to be used when a citizen believes a school or county school system has violated state law or the policies, rules, and regulations of the WVBE. The process is not to be used in situations where the county does not have the authority to act or where there is another solution specifically provided by law (such as with the placement of exceptional students). It is also not to be used for personal complaints about school or county employees. Personal complaints about employees and other citizen complaints not governed by this process must be filed pursuant to the county school system's specific procedures.
